

Letter sent February 26, 2023 to OHA, ODE, SOS, AG, etc.:

Notice to the Agent is notice to the Principal. Notice to the Principal is notice to the Agent.

To All

You are receiving four more tranches of information regarding COVID-19, mRNA genetic shots, masking, etc. - **TRANCHES 12, 13, 14, and 15**. This is all **extremely** important, up to date information. The disaster of the COVID-19 panicked response is increasingly coming into focus as data/information from around the world pours in.

It is never a smart look to jump to conclusions based upon bogus information and assumptions, and that is exactly what Oregon has done. You were played by the Medical Industrial Complex, in particular Big Pharma. Oregon "government", ignoring all common sense and logical thinking, while marginalizing and destroying individuals who disagreed or questioned their narrative, pushed an EXPERIMENTAL medical treatment that had never been tested on humans, but in the minimal number of animal experiments was disastrous. Oregon officials had, and still have, no idea what ingredients are in these EXPERIMENTAL genetic shots. Without hesitation it seems, Oregon bureaucrats pushed them upon Oregonians anyways. When Oregonians voluntary taking the shots didn't work as well as expected, Oregon bureaucrats had to resort to bribery with doughnuts, a lottery, marijuana, etc., to entice and cajole the public into taking these EXPERIMENTAL genetic shots. When that didn't work as planned, Oregonian's jobs and livelihoods were threatened. Some of you were of the opinion that those who refused the shots, for whatever reason, should have no access to medical care, groceries, and school, some going as far as wanting those who declined the genetic mRNA shots jailed. Like I've already said, **jumping to conclusions is never a good look**, especially with the marked increase in morbidity and mortality that has occurred since these EXPERIMENTAL genetic mRNA shots were cavalierly foisted upon the public.

Tranche 12 contains very important articles and papers...literal gamechangers. Pay particular attention to **Attachment #25**, because if you don't make a 180 degree change of course in your policy, this is the future you have to look forward to.

Pay close attention to all this information. There will not be a final exam, but **you will be held legally responsible** for its content because you are now "in the loop". You have now received 15 tranches of scientific information - use it wisely. Your receipt of these tranches is carefully documented.

With the information I have provided, you are now aware of the horrid repercussions of your unfortunate decisions...decisions you need to reverse immediately for the good of

the men, women and children on Oregon. If you all don't start making some rational, SCIENCE BASED, medical and societal decisions, there will be class action suits - no doubt in my mind.

You have tons of information, so use it wisely. And please contact me with questions, more information, etc. So far, I have received no contact from any of you. No, "Thanks for the information.". Not even an email acknowledging receipt of the incredible information you have been sent free of charge. That's disrespectful.

Respectfully
Eric Dover, MD
