

Tranche 27 Highlights

These documents and studies are all related to heart disease, in particular **myocarditis**. Seems myocarditis is a significant ‘side effect’ of the untested, mystery ingredient, genetic modRNA shots (no, not mRNA, but modified RNA – see article in another Tranche discussing this finding).

What a horrific situation low IQ bureaucrats, totalitarian medical boards, abusive and narcissistic physicians, and supposed ‘experts’, like Dr. Fauci, have put us all in, especially those who begged for, or acquiesced to, the COVID-19 shots. Lot of money was made by all the above entities as you will see in another Tranche.

Regarding the document titled: **‘I Regurgitated the Party Line’ – Cardiologist Regrets Pushing Vax After ‘Undeniable’ Rise in Heart Conditions’**. I spoke with this physician on the phone. He is supposedly one of the United States’ top cardiologists. I feel the word **‘regret’** that he uses is a weak, and sad, example of a narcissist who can’t say he is sorry for the devastation he has brought to the U.S. and worldwide. He should be in prison for life at the very least.

Will his state’s medical board revoke his license? Doubtful. If they did, that would expose the fact that **our country’s physicians and medical institutions are incompetent, psychopathic boobs who receive bribes for hurting their patients**. The medical boards won’t do anything to him or others like him.

- First, his buddies are very likely on the medical board and will cover his ass.
- Second, it would also expose how criminal our institutions of ‘higher learning’ and governance are.
- Third, it would expose the money made off of morbidity and mortality of those who out of fear or coercion were injected with this **‘experimental’** shot.

All of you addressed here are 100% responsible for what has already unfolded, and what continues to unfold. The typical ‘human’ response would be deep sadness, fear, shame, and guilt; and you would step down from your positions. I assume you all are narcissists, so I doubt any of you will understand what I have stated. **You just follow orders, right?**
