

## Tranche 29 Highlights

Lawsuits, lawsuits, and more lawsuits. People who were 'forced' into a COVID shot are fighting back. And they are winning with reinstatement of their job and lost income.

The sad part is multifaceted:

- Death
- Morbidity
- Disability
- Loss of income, home, etc.
- Family chaos
- **Doctors who lose their license for speaking their truth to the totalitarian medical boards.**

Many of you have allowed the Oregon Medical Board (OMB) to destroy physicians, their families and their patients for decades. And you don't give a damn.

Physicians are not allowed:

- to give an opposing opinion,
- to use alternative medications such as hydroxychloroquine or ivermectin,
- to relate what they are seeing medically in their practices,
- their constitutional rights and due process.

This is bogus. Those who questioned COVID turned out to be 100% correct, while the 'herd' was 100% wrong. The morbidity and mortality data is pouring in and it only seems to be worsening.

**Doctors' licenses have been revoked for decades for not following the totalitarian OMB orders. But the OMB always protects their own no matter what adverse incident they have been involved with, including patient death.**
