

Tranche 34 Highlights

What you all have done to society is atrocious, but what you did to the children is even worse. The first document discusses this and is a **MUST READ**.

Physicians were bribed to promote the COVID shots and received incentives for each one they gave. I'm not sure how, or why, anyone would trust the discipline of allopathic medicine at this point. Physicians are simply drug pushers, excluding surgeons doing surgery, for Big Pharma, and have been for some time.

More documents and studies related to the wearing and **ineffectiveness of masks**. Masks have been shown to be dangerous when worn for extended periods of time and they contain **toxic compounds that may result in cancer, liver damage and other problems**.

A new study showed that **kids almost never transmitted COVID in schools**.

mRNA shots are now being looked at for use in livestock. Turns out some pork ranchers have already been giving it to their animals since 2017. Plants are also being 'infected' with mRNA, or more likely modRNA. So, you will soon eat whatever 'vaccine' the government wants you to have. In addition, Yale is now discussing aerosolizing 'vaccines'. That translates into 'they' are already doing it.

The WHO finally came to the conclusion that healthy kids don't need COVID shots.

Fauci, Collins, many other bureaucrats, and probably some of you, have made a fortune off of the COVID hoax. **Fauci alone made over \$300 million off of the hoax.**

Anyone who got a COVID shot that wasn't a placebo is **shedding**.

The German government has confirmed that there is no data that shows those who received a COVID-19 shot have any better medical/health outcomes than those who did not receive a jab.

If you wish to learn how to protect yourself, your family, and your friends from the COVID shots you all took, please contact me and I'd be happy to consult with you privately. Otherwise, maybe you got lucky and received a placebo being you are in a blue state. Greater chance than in a red state where you very likely received a shot with triple the dose recommended.

I'm so happy me and mine didn't fall for the government BS. We feel great.

If you haven't figured it out by now, they are trying to kill you.
